

# CURRICULUM VITAE

**TOMMASO FEDERICI**

*(December 2022)*

## PERSONAL DATA

scholar <http://scholar.google.it/citations?hl=it&user=ZmLUNWYAAAAJ>  
researchgate [http://www.researchgate.net/profile/Tommaso\\_Federici/](http://www.researchgate.net/profile/Tommaso_Federici/)  
academia <http://unitus.academia.edu/TommasoFederici>  
orcid 0000-0001-6016-5868

## EDUCATION

- Master degree in Economics (summa cum laude) at the University 'La Sapienza', Rome, Italy, 1984, with a thesis in Statistics: 'Discriminant analysis and classification problems'

## ACADEMIC QUALIFICATIONS

- Habilitated as Associate Professor for the Area CUN 'Organization Studies' 13/B3 (SECS-P/10) in Scientific National Habilitation (2015)

## OTHER QUALIFICATIONS

- Online Teaching Certificate, issued by the Dept. of Online & Digital Learning, Temple University (2020)
- Official auditor (1997)
- Public accountant (1987)

## ACADEMIC POSITIONS

since 2022	Adjunct professor of 'Data Science' at Temple University, Rome campus, Italy (42 hrs.)
since 2020/2021	Adjunct professor of 'Digital Entrepreneurship Lab' at the Department of Business and Management, LUISS University 'G.Carli', Rome, Italy (32 hrs.)
since 2019/2020	Adjunct professor of 'Digital and Organisational Innovation' at the Department of Business and Management, LUISS University 'G.Carli', Rome, Italy (48 hrs.)
since 2015/2016	Adjunct professor of 'Human Resource Management' at the Department of Economics and Management, University of Tuscia, Viterbo, Italy (60 or 48 hrs.)
2021	Adjunct professor of 'Data Science' at Temple University, Philadelphia, USA (36 hrs.)
2020-2021	Adjunct professor of 'Information Systems in Organizations' at Temple University, Rome Campus, Rome, Italy (40 hrs.)
2018/2019 to 2019/2020	Adjunct professor of 'Organization Theory' at the Department of Economics and Management, University of Tuscia, Civitavecchia campus, Italy (48 hrs.)
2015/2016	Adjunct professor of 'Information Systems Organization' at the Department of Business and Management, LUISS University 'G.Carli', Rome, Italy (60 hrs.)
2009/2010 to 2013/2014	Adjunct professor of 'Organization Theory' at the Department of Economics and Management, University of Tuscia, Viterbo, Italy (60 hrs.)
2010-2011	Adjunct professor of 'Organization Theory' at the Faculty of Economics, LUISS University 'G.Carli', Rome, Italy (60 hrs.)
2007/2008 to 2010/2011	Adjunct professor of 'Organization Theory' at the Faculty of Sociology, University 'La Sapienza', Rome, Italy (40 hrs.)
1998/1999 to 2007/2008	Adjunct professor of 'Information Systems Organization' at the Faculty of Economics, University of Tuscia, Viterbo, Italy (60 or 45 hrs.)
2005/2006	Contract professor of 'Information Systems Organization' at the Faculty of Engineering, University 'La Sapienza', Rome, Italy (15 hrs.)

- 1988/1989 to 1997/1998 Teaching assistant of 'Information Systems Organization' at the Faculty of Economics, University 'La Sapienza', Rome, Italy (72 hrs.)
- 1992/93, 1996/97 Teaching assistant of 'Information Systems Organization' at the Faculty of Economics of the University of Latina, Italy (60 hrs.)

### Visiting periods

- 2020 University of Agder (Norway), Department of Information Systems: Lectures on 'Perspectives of adoption of Blockchain and Smart contracts in PAs' (M.D. course), 'Inductive research approach in social research' (M.D. course), 'The ambivalent role of IT in openness and closedness of organizations' (faculty members)
- 2018 University of Agder (Norway), Department of Information Systems: Lectures on 'Blockchain, Smart contracts and Public Administrations' (M.D. course), 'Online Communities for collective action' (M.D. course)
- 2016 University of Agder (Norway), Department of Information Systems: Lectures on 'Mass eParticipation' (under-graduate courses)

### Other Teaching Experiences

- 2022 Post-graduate lecture on 'Blockchain adoption perspectives in Public Sector' at the 2<sup>nd</sup> level Master in Compliance and corruption prevention at LUISS University G.Carli, Rome, Italy
- 2022 Post-graduate session on 'Design Thinking' at the 2<sup>nd</sup> level Master EMIT at LUISS University G.Carli, Rome, Italy
- 2021 Post-graduate lecture on 'Blockchain and corruption fighting' at the 2<sup>nd</sup> level Master in Compliance and corruption prevention at LUISS University G.Carli, Rome, Italy
- 2020 Post-graduate session on 'Design Thinking' at the 2<sup>nd</sup> level Master EMIT at LUISS University G.Carli, Rome, Italy
- 2020 Post-graduate session on 'Agile Organization, UX and Digital Design Thinking' at the Master in Marketing Management, Major in Digital Marketing at LUISS University G.Carli, Rome, Italy
- 2019 Ph.D. course on 'Paradigms and methods in Information Systems research' in the Ph.D. program at University of Tuscia in Viterbo, Italy
- 2019 Post-graduate session on 'Design Thinking' at the Master in Marketing Management, Major in Digital Marketing at LUISS University G.Carli, Rome, Italy
- 2018 Post-graduate session on 'Design thinking and Agile organizations' at the 2<sup>nd</sup> level Master EMIT at LUISS University G.Carli, Rome, Italy
- 2015 Post-graduate session on 'Information Systems for Human Resource' at the 2<sup>nd</sup> level Master GRUO at LUISS University Guido Carli, Rome, Italy
- 2015 Class on 'Mass eParticipation' within graduate courses at University of Milan (Italy)
- 2014 Ph.D. course on 'Paradigms and methods in Information Systems research' in the Ph.D. program at University 'Federico II' in Naples, Italy
- 2008 Sessions on 'Decision making in organizations' and on 'Exploring and organizing information' at the 'Sharing Conservation Decisions' international course for conservators, archaeologists, restorers, at ICCROM (intergovernmental organization dedicated to the conservation of cultural heritage), Rome
- 2007 Post-graduate session on 'Information Systems Management' at the MBA at LUISS University Guido Carli, Rome, Italy
- 2003 Post-graduate course of 'e-Government' at MIPA (Master on process Innovation in the PA sector), SDOA Management school, Vietri sul mare, Italy
- 1995 to 1998 Post-graduate course of 'Informatics in Bank managing' at the 'Master in Banking Discipline' of the University 'La Sapienza', Rome, Italy

1995 to 1998	Post-graduate course of 'Informatics and Information Systems' at the 'School of Professional Training for applicant Public Accountants' of the University 'La Sapienza', Rome, Italy
1995 to 1998	Course on 'Informatics for Top Manager' at the Italian Superior School of Finance Police
1998/1999	Sessions on 'Executive Information Systems' and 'IS Management' for the future executives of the Italian Ministry of Treasure

### **Organization of education programmes**

2008/2009	Educational Coordinator of the programme "Education to the use of digital teaching technologies for teachers and operators in schools of Province of Viterbo" on behalf of University of Tuscia, Viterbo, Italy.
-----------	--

### **First level Teaching Courses**

Digital and Organisational Innovation	It is a 48-hr course available to students at the 2nd-year from more master programmes at LUISS University. By using scientific papers and cases analysis, and varying the perspective from technology to individual and organization, the goals are those of soliciting reflections and generating knowledge on the transformation that digitization and the new technologies - e.g., platforms, blockchain, AI, IoT, big data ... - bring into organizations. The course involves also the experience on methods - e.g., design thinking, visualization, journey map - that fit better digital innovation process, and a group project work to deepen the analysis on a real innovation
Digital Entrepreneurship Lab	24-hr course for students at the last year of the undergraduate programme in Computer Science at LUISS University. By adopting the Design thinking approach and methods, this laboratory leads students along all steps of an innovation process, from users' profiles and needs identification, to ideation, prototyping, business model, final pitch
Data Science	Undergraduate course (42 hrs.) offered by the Department of Management Information Systems, Temple University. The aim is that of introducing students to the main aspects and issues related to data: sources, structuring, cleaning, quality, merging/matching, inquiry building, data visualization, misuses. It is also based on a large use of in-class activities and homeworks to let students making experience on operating on, inquiring and visualizing data
Information Systems Organization	Course available at the second-last year of the master degree programme in Business Management. The course (initially 60, then 45 hrs.) aims at providing students the knowledge about the management of the resource information by means of digital technologies for organizations of any kind. Topics include fundamental concepts – data and information definition, Information System, process ... –, and all the phases of IS development and management, ranging from the feasibility study up to implementation and use
Information Systems in Organizations	Undergraduate course (36 hrs.) offered by the Department of Management Information Systems, Temple University. The aim is that of introducing the fundamentals of Information Systems in the perspective of business organizations, together with the basic elements for Javascript coding
Human Resource Management	Course offered to students at last year of the undergraduate programme in Political Science at University of Tuscia (initially 60, then 48 hrs.). After an alignment on Organization Theory main concepts, the course deals with all the topics of HRM, examined under both the perspectives of 'traditional' theories and of consequences of digital transformation on work and workplace. To link the course to changing reality, classes make large recourse to case studies and discussions and a group project work on a real organization is carried on.
Organization Theory	Course offered by the Department of Economics and Management, University of Tuscia at the last year of undergraduate programme in Business Management. It is a 48-hour course, whose aim is that of making students acquainted of the fundamentals of organization theory: design of structures, control mechanisms and culture, change management, decision theory. By making use of readings, case studies, discussions

and a group project work on a real organization of any size and nature, the course proposes continuously bridges between theories and reality.

**Organization Theory** Course offered at the Faculty of Social Sciences at the last year of the undergraduate programme in Sociology. . It is a 40-hour course, with the aim of making students of sociology acquainted of the fundamentals of organization theory and how organization work. Through case studies, discussions and a group project work, the students explore the management side of organizational social phenomena

### **Development of Teaching Materials**

He wrote, alone or together with other authors, some handbooks and teaching cases, which have been both included in the handbooks and provided as lecture notes:

- From protest to parliament: The role of digital technologies within an online community [1]
- The Interplay between Practitioners and Technological Experts in the Design Process of an Archaeology Information System [6]
- Introducing e-Procurement in a Public Local Healthcare Agency, inserted in book [25]
- Assessment of the IS compliancy in a Consulting Firm (provided as a lecture note at the MBA in LUISS University)
- Feasibility study for a new IS in a Public Security Company, inserted in book [57]
- Feasibility study for a new IS in a small Publishing House, inserted in book [57]
- An ICT-based organizational innovation in Local Public Administrations, first inserted in book [], then improved as a lecture note
- Organizational changes and impacts of an EIS introduced in a Bank, first inserted in book [], then improved as a lecture note at the MBA in LUISS University

### **RESEARCH**

Tommaso Federici has always been fascinated by the innovation process, particularly when a new IT artifact is introduced into an organization, possibly supported by a new organization design. Such innovation might (or may not) generate impacts, either positive or negative, on cultures, persons, habits, structures and performance. This is a frontier territory, possibly to be understood according to multiple perspectives. Hence, Tommaso always tried to follow a multi-disciplinary approach, joining the scholars' and the practitioners' perspectives, and trying to match theoretical rigour with practical relevance.

The most recent Tommaso's research interests are:

- Blockchain adoption in Public Administrations
- Online Communities for Collective action
- Influence of Mass eParticipation on the Political Processes
- Agile work as a new form of organizing

Other examples of past research interests are:

- Digital Natives entering the workplace
- ICTs introduction in the virgin context of public Departments for archaeological finds management
- e-Procurement introduction in the public healthcare sector
- New scenarios offered to Public Administrations by the Open-Source software
- ERP adoption in SMEs
- Introduction of ICT in the transport sector (ITS projects)

### **Research projects**

2017-2019 Member of the experts' team supporting the MASTIS research project (funded by Erasmus+ H2020 initiative) to investigate content and methods of high education on Information Systems in European countries. The project aims also at promoting the exchange of knowledge among European partner universities and the alignment of eastern Europe universities programmes and teaching in courses related to Information Systems domain (<https://mastis.pro/>)

2016-2019 Member of the team of the project AIND ('Amministrazioni e Imprese Native Digitali',

*Digital Native Administrations and Firms*) promoted by University of Cagliari and funded by Region Sardinia (FP7). The project aims at rethinking Public Administrations like if they were reborn now, by identifying possible scenarios of evolution thanks to digital technologies. Head of research on the research project “Perspectives of adoption of blockchain technologies within Italian Public Administrations”.

- 2015 Responsible of scientific dissemination through digital channels of the research project ‘Business Innovation in Virtual Enterprises Environment’ - BIVEE (funded by FP7) on behalf of the Polytechnic University of Marche [www.bivee.eu](http://www.bivee.eu)
- 2008-2009 Research director of the research project ‘Intelligent Transport Systems in Italy’ on behalf of the Italian Ministry for Infrastructures and Transports. Partners were the Department of Technological and Managerial Studies of the University of Tuscia, and the Research Center on Information Systems (CeRSI) of the LUISS University G.Carli. The project mainly aimed at building a knowledge base (both including a database and a taxonomy) on the ITS initiatives, a neglected topic for the IS discipline so far. This is a first-step objective in order to build a research agenda on this domain, where government needs to draw effective policies  
[http://www.mit.gov.it/mit/site.php?p=cm&o=vd&f=cl&id\\_cat\\_org=37&id=1378](http://www.mit.gov.it/mit/site.php?p=cm&o=vd&f=cl&id_cat_org=37&id=1378)
- 2008-2010 Research co-director of the research project ‘Open Source in the Public Administrations’. Partners were the Research Center on Information Systems (CeRSI) of the LUISS University Guido Carli and the think-tank Concreta-mente. The first objective of the project was that of investigating the context (where), the process (how) and the content (what) of the increasing adoption of OS by PAs. This exploratory phase, which was completed, should address future research to measure and localize benefits and threats for PAs <http://www.lulu.com/shop/leonardo-bertini-and-tommaso-federici-and-andrea-montemaggio-and-paolo-spagnoletti/open-source-nella-pubblica-amministrazione-ospa-09/ebook/product-17377833.html>
- 2003-2008 Research director of the IS module of the research project ‘gISAD - Recouvrement du Potentiel Informatif des Sites Archéologiques Démontés’ (*Potential Information Retrieval of Archaeological Mobile Sites*), (see [www.buoniesempi.it/print.asp?protocollo=60033](http://www.buoniesempi.it/print.asp?protocollo=60033)). Funded by the INTERREG EU Program and promoted by the Italian autonomous Region Valle d’Aosta, by means of its Co-financed Projects and Research Direction under the Monuments Department, together with other six regional Monuments Departments, both Italian and European (from France, Portugal and Spain). The IS module of the project aimed at defining an integrated, shareable and transversal operative methodology and at creating an interdisciplinary IS on this base, capable of supporting the everyday activities related to finds management. The IS has been eventually developed with the name ArcheoTRAC (Archaeological Heritage Tracking, Recovery, Assessment and Conservation). This project was awarded as a best practice by the Ministry for Public Administration and Innovation
- 2004-2008 Research director of the research project ‘Organizational change and performance impact produced by the e-procurement introduction in healthcare sector’. Partners were CONSIP (Italian Public Procurement Agency), the Local Healthcare Agency of Viterbo, and Department of Technological and Managerial Studies of the University of Tuscia. The project had the aim of investigating the organizational changes and the impacts on performance derived by the e-procurement introduction at the LHA of Viterbo, which is a best practice in the e-procurement experience in healthcare. A further object was that of developing a tool to map and detail the analysis of results
- 2005-2007 Member of the trans-European research project ‘Citizen portal’, promoted by EU/DG-INFOS and managed by e-Forum. The group involved both scholars and practitioners coming from about 15 EU countries. The project aimed at studying the organizational and technological foundations of the best-practices in citizen e-services solutions in Europe, in order also to draw a reference model
- 2005-2007 Research director of the applied research project ‘APQweb’ on behalf of the Italian Ministry for Infrastructures and Transports. Partners are the Department of

Technological and Managerial Studies of the University of Tuscia. The project aimed at identifying a new way to publish on the web all the infrastructures interventions funded by the Ministry, both referring them to the original documents than geo-referencing them on a scalable map. The development of a working pilot was also involved. Later, a second project committed by the same Ministry involving the same research group of the first project was devoted to the revising and improving of the original prototype, with the main objective of extending and making more powerful the use experience for the final user (<http://apq.infrastrutture.gov.it>)

### **Evaluation of Research projects**

since 2021	Expert evaluator of strategic plans, innovation projects and technology transfer projects for the Region Valle d'Aosta (I)
2014-2015	Member as expert evaluator of the Evaluation Committee established by Italian Region Calabria to assess the seven Regional Innovation Poles funded through FP7
since 2016	Expert evaluator for DIGIT-EU, action CEF Telecom
since 2013	Expert evaluator in the Industrial Research area for the Italian Ministry for University and Research
2005-2006	Chief evaluator of the Operating Programme on Information Society in the PON (National Operative Programme) ATAS (Government assistance), on behalf of the Evaluation Unit of the Italian Economy Ministry
2003 to 2006	Expert evaluator of projects for DG INFSO: e-Content action
1999 to 2006	Expert evaluator of projects for DG INFSO: Information Society and Media in the e-TEN (former TEN-Telecom) action

### **CHAIRING**

#### **Tracks**

2020	'Digitized acting in digital societies: the bright and the dark side of online communities' at ECIS 2020, Marrakech (Morocco), June 15 <sup>th</sup> -17 <sup>th</sup>
2019	'Online communities as a new form of digital collective action in a digital society' at itAIS - MCIS 2019, Naples (Italy), September 27 <sup>th</sup> -28 <sup>th</sup>
2018	'Acting digitally in a digital society: the force and the dark side of online communities' at itAIS 2018, Pavia (Italy), 12-13 October.
2018	'Digitized Acting in Digitized Societies: the good and the dark side of online communities' at ECIS 2018, Portsmouth (UK), 23-28 June.
2017	'Digital people living in a digital society: the force and the dark side of online communities' at itAIS 2017 Conference, Milano (Italy), 6th-7th October.
2016	'Supply Chain: Resilience and Security' at itAIS 2016 Conference, Verona (Italy), 7th-8th October.
2015	'Participation in the polis and in the organization' at itAIS 2015 Conference, Rome (Italy), 9th-10th October.
2014	'Polis and organization: addressing e-Participation issues' at itAIS 2014, Genoa (Italy), 21st-22nd November.

#### **Programme**

2021	9 <sup>th</sup> International Workshop 'Information Technology in Economic Research' (ITER 2021), Kherson (Ukraine)
2020	8 <sup>th</sup> International Workshop 'Information Technology in Economic Research' (ITER 2020), Kharkiv (Ukraine)
2014	ALPIS 2014 Workshop, Carisolo (Italy), 12 nd-15th February.

## Sessions

- 2019 'Online communities as a new form of digital collective action in a digital society' at itAIS - MCIS 2019, Naples (Italy), September 27<sup>th</sup>-28<sup>th</sup>
- 2018 'Acting digitally in a digital society: the force and the dark side of online communities' at itAIS 2018, Pavia (Italy), 12-13 October.
- 2017 'Digital people living in a digital society: the force and the dark side of online communities' at itAIS 2017 Conference, Milano (Italy), 6th-7th October.
- 2015 'Participation in the polis and in the organization' at itAIS 2015 Conference, Rome (Italy), 9th-10th October.
- 2014 'Polis and organization: addressing e-Participation issues' at itAIS 2014, Genoa (Italy), 21st-22nd November.
- 2013 'New Organisational Forms - The Role of Information in the Information Society' at IADIS 2013 Conference, Lisbon (Portugal), 13rd-15th March.

## Presentations at Conferences and Seminars

- 2022 19<sup>th</sup> conference of the Italian Chapter of AIS – itAIS 2022, Catanzaro (Italy), 14-15 October
- 2019 II° Seminars Cycle DAB - Digital Advisory Board, LUISS Business School, Rome, Italy, October 16<sup>th</sup>
- 2017 XVIII° Workshop of Professors and Researchers of Organization Theory – WOA 2017, Pisa (Italy), May 16-17
- 2015 XII<sup>^</sup> Conference of the Italian Chapter of AIS, Rome, Italy, October 21-22
- 2013 Seminar on 'Legalità ed efficienza dai processi informatici e telematici', University of Tuscia, Viterbo, Italy, November 22<sup>nd</sup>
- 2013 X° Conference of the Italian Chapter of AIS, Milan, Italy, December 13-14
- 2013 XIV° Workshop of Professors and Researchers of Organization Theory – WOA 2013, Rome, Italy, June 17-18
- 2013 IADIS International Conference on Information Systems, Lisbon (Portugal), March 13-15
- 2013 9th Alpine Seminar on Information Systems – ALPIS, Carisolo (TN), Italia, Carisolo (TN), Italy, February 14-16
- 2012 IADIS International Conference on Information Systems, Berlin (Germany), March 10-12
- 2011 VIII<sup>^</sup> Conference of the Italian Chapter of AIS, Rome, Italy, October 7-8
- 2011 7th Alpine Seminar on Information Systems – ALPIS, Carisolo (TN), Italia, Carisolo (TN), Italy, February 10-12
- 2010 Workshop 'OSPA '10 - Strumenti per l'Innovazione nella PA', LUISS University, Rome, Italy, November 11<sup>th</sup>
- 2010 XI° Workshop of Professors and Researchers of Organization Theory, Bologna, Italy, June 17-18
- 2010 6° Alpine Seminar on Information Systems – ALPIS, Carisolo (TN), Italia, February 11-13
- 2009 Workshop 'Open Source nella Pubblica Amministrazione', LUISS University, Rome, Italy, 17th December
- 2009 X° Workshop of Professors and Researchers of Organization Theory – WOA 2009", Cagliari, April 29-30
- 2009 IV° Workshop 'Archeofoss. Open Source, Free Software e Open Format nei processi di ricerca archeologica', CNR, Rome, Italy, April, 27-28
- 2009 5° Alpine Seminar on Information Systems – ALPIS, Carisolo (TN), Italy,
- 2008 III<sup>^</sup> Mediterranean Conference on Information Systems, MCIS 2008, Hammamet, Tunisia, October 24-26
- 2008 IX° Workshop of Professors and Researchers of Organization Theory – WOA 2008, Venice, Italy, February 7-8
- 2007 II<sup>^</sup> Mediterranean Conference on Information Systems, MCIS 2007, Venice, Italy, October 6-8
- 2007 XV° European Conference on Information Systems, ECIS 2007, St.Gallen, Switzerland, June 7-9

- 2007 VIII° Workshop of Professors and Researchers of Organization Theory – WOA 2007", Reggio Emilia, Italy, February 8-9.
- 2006 I^ Mediterranean Conference on Information Systems, MCIS 2006, Venice, Italy, October 5-6
- 2006 II^ Conference of the Italian Chapter of AIS - itAIS 2006, Milan, October 26-27.
- 2001 Workshop 'Distribuzione multi-canale nelle banche e nelle assicurazioni', University of Tuscia, Viterbo, Italia, 21st June
- 2000 Workshop 'Turismo e reti locali', SDOA Management School, Vietri sul mare (SA), Italy, July 14<sup>th</sup>
- 2000 Workshop 'Il risparmio gestito: attività e strumenti degli intermediari finanziari bancari e non bancari', University of Tuscia, Viterbo, Italy, February 28<sup>th</sup>.
- 1999 Workshop 'Un futuro per le Banche Locali: strategie e sfide organizzative', University of Tuscia, Viterbo, Italy, June 3<sup>rd</sup>
- 1995 Workshop 'Impiego di tecnologie avanzate nel settore del personale', CeTIF – Catholic University, Milan, Italy, March 21<sup>st</sup>.
- 1993 Seminar 'Nuovi strumenti nei S.I. Bancari', LUISS University, Rome, Italy, November 18-19

#### **AWARDS**

- 2022 "Top Downloaded Article during its first 12 months of publication" from Wiley for the article [2] Sæbø, Ø., Federici, T., Braccini, A.M. (2020) Combining social media affordances for organising collective action. *Information Systems Journal*
- 2022 "Top Cited Article 2020-2021" from Wiley for the article [2] Sæbø, Ø., Federici, T., Braccini, A.M. (2020) Combining social media affordances for organising collective action. *Information Systems Journal*
- 2018 "Best Track" award at itAIS 2018, Pavia (Italy), 12-13 October.
- 2013 "Best 'Alessandro D'Atri' paper" award at itAIS 2013, Milan (Italy), 15-16 November.
- 2012 "Outstanding paper" award at IADIS 2012, Berlin (Germany), 17-20 March.

#### **REVIEWING**

##### **Journals**

- since 2020 CAIS Communication of Association of Information Systems
- since 2019 Information & Management
- since 2019 Operations Management Research (OMR)
- since 2018 Transforming Government: People, Process and Policy
- since 2017 Government Information Quarterly (GIQ)
- since 2017 Transactions on Emerging Topics in Computing
- since 2017 Management Research Review (MRR)
- since 2016 Information System Journal (ISJ)
- since 2015 Information Systems and e-Business Management (IseB)
- since 2014 International Journal of Science and Technology Education Research (IJSTER)
- since 2009 Management Research News (MRN)
- since 2008 Journal of Enterprise Information Management (JEIM)

##### **Conferences**

- since 2018 ICT in Education, Research, and Industrial Applications (ICTERI)
- since 2016 European Academy of Management (EURAM)
- since 2016 International Conference on Exploring Service Science (IESS)

since 2014	International Conference on Information Systems (ICIS)
since 2014	Organizations, Artifacts and Practices in our world Workshop (OAP)
since 2008	European Conference on Information Systems (ECIS)
since 2007	Hawaii International Conference on System Sciences (HICSS)
since 2015	International Conference on Communities and Technologies (C&T)
since 2007	Workshop di Organizzazione Aziendale (WOA)
since 2006	International Conference of Italian Chapter of AIS (ItAIS)
2010	Wuhan International Conference on E-Business
2006	International Conference on Electronic Commerce (ICEC)

### Editorial books

2008	Etnografia e Ricerca Qualitativa
2008	Cases on Managing E-services

### MEMBERSHIPS OF SCIENTIFIC SOCIETIES

- itAIS Italian chapter of AIS
- AIS Association for Information Systems
- ASSIOA Association of Italian Organization studies Academics
- AICA Italian Association for Automatic Computing (former member of the board)

### MAIN WORKING EXPERIENCES AS EXPERT/CONSULTANT

#### Public Administrations

2017-2019	Region Sardinia (IT)	Member of the strategic team supporting the Region in evolving its Smart Specialization Strategy S <sup>3</sup> (EDRF funding FP7)
2017-2019	Region Sardinia (IT)	Member of the experts' team leading a Technological Foresight initiative for innovating Public Administrations' services in the Region (EDRF funding FP7)
2015-2018	Prosecutor of the Republic of Rome	Consultant of Public Prosecutor for evaluating economic congruity and technical adequacy of a multi-service IT-based assignment of important dimensions, and of related activities and outcomes
2014-2015	Region Calabria (IT)	Expert consultant in charge of the Digital Agenda design in the Regional Operating Programme 2014-2020 (Priority Area #2), within the Framework Programme FP7
2012-2013	Region Puglia (IT)	Project leader of the project 'Progettazione e realizzazione di un Centro Risorse che eroghi servizi di formazione, informazione, consulenza e networking destinati agli operatori dei Laboratori Urbani del Programma "Bollenti Spiriti" della Regione Puglia', awarded by EU Commission ( <a href="http://bollentispiriti.regione.puglia.it">http://bollentispiriti.regione.puglia.it</a> )
2008-2012	Ministry for PA	Design of the system for managing selection of experts to be involved in consultancy for PAs, run by the Ministry for Public Administration
2010-2012	Ministry of Infrastructures and Transports	Member of the Board for updating and acceptance of SIMPT ( <i>Information System for Transports Investments Monitoring and Planning</i> ), promoted by the Ministry
2010-2011	Municipality of Afragola (IT)	Design of the organizational structure and process of a 'Sportello Unico per le Attività Produttive integrato' ( <i>one-stop administrative shop for firms</i> ), to be run by the municipality
2009	Prefecture of	Workshop on Change Management and Process Reengineering to Area

	Naples	Manager in an experimental initiative of organizational innovation promoted by the Prefecture
2006-2008	Ministry of Infrastructures and Transports	Member, as organization expert, of the Scientific Committee for the 'Italian Architecture of Intelligent Transport Systems (ARTIST)' development, promoted by the Ministry
2007-2008	Formez ( <i>Italian Agency for supporting PAs</i> )	Design of an Information System for the business intelligence of the results of the project 'Thesaurus', funded by PON ATAS ( <i>System Actions for the Development of Public Administrations</i> ), FP6
2006-2010	Province of Benevento (IT)	Member of the ICT Board for innovating Public Administrations of the Province
2006-2007	Municipality of Salerno (IT)	Planning and project management of 'Uno Sportello di opportunità' project, aiming at activating a COF ( <i>local public agency for unemployed women</i> ), to be run by the municipality
2006-2007	Formez ( <i>Italian Agency for supporting PAs</i> )	Coordinator of Evaluation Team in the project of Line D.7: 'Technical Group development, evaluation and rewarding in marginal areas', in the Operating Programme D: 'Organization, Simplification and Governance systems'
2005-2006	Province of Benevento (IT)	Project coordinator to build a provincial Territorial Service Center (CST), named Consorzio Sannio.IT, within the related CNIPA and regional bids
2004	Province of Benevento (IT)	Draft preparation of the Strategic Innovation Plan of an Italian Province
2003-2008	Region Valle d'Aosta (IT)	Author of the Feasibility study and technical specifications for an innovative information system to manage archaeological and document heritage, promoted by the Regional Monumental Department, together with other 6 European Monumental Departments. Project leader of the following development project
2003-2008	Ministry of Infrastructures and Transports	Member of the Scientific Committee on the project for updating of SIMPT ( <i>Information System for Transports Investments Monitoring and Planning</i> ), promoted by the Ministry
2002-2003	Province of Benevento (IT)	Design and project management for 'Competencies development and organizational innovation within the PAs' of the Province of Benevento (action 3.10 of POR Campania, FP6)
2002-2003	Various Italian Municipalities ( <i>around 600</i> )	Author of the organization module of the project 'ComuneAmico.Net' (1 <sup>st</sup> and 2 <sup>nd</sup> phase) granted by 'E-Government' call promoted by CNIPA (Italian national agency for IT)
2002-2003	Region Campania (IT)	Scientific advisor for the 'Multi-action Project on Organization and competence development of a regional administration' in the Italian Region Campania
2000-2001	Municipality of Naples (IT)	Introduction of the Project management approach in the programming and budgeting processes of management activities run by the municipality
2001-2002	Sudgest ( <i>Italian agency for supporting PAs</i> )	Scientific advisor in designing the education plan for the 'Local development agents'
since 2001	Several Public Administrations	Author of Calls for tender for measures financed by EU or Italian Ministry of Labour. Designing and supervising of monitoring systems for the same measures
1999	Region Sardinia	Evaluation of impacts of development projects financed by European Social Fund (FP5) in an Objective 1 area
1998-2000	Several Italian Municipalities	Design of process reengineering actions for about 150 local public administrations, financed by European Social Fund (FP5)
since 1998	Several PAs or Schools of	Docent of several courses on 'Organizational change in PAs', 'Technological innovation and Process reengineering', 'Project Management', for Local Public

	management	Managers
since 1997	Several central or local PAs	President and Member of Public Commissions for assigning public contracts
since 1995	Several central or local PAs	Author of Feasibility study and technical specifications of the contracts for new or reengineered IS

### Private bodies

2018	Menarini MLS ( <i>pharma</i> )	Assessment of the level of readiness to the innovation of Industry 4.0, on behalf of SFC ( <i>professional training and R&amp;D in industry of Confindustria, Italian Confederation of Business Associations</i> )
2017-2018	RDS ( <i>radio</i> )	Teaching of 'Creative thinking and Agile work' module at 'Executive Education for Digital Transformation in RDS', on behalf of LUISS University Business School
since 2005	Lega Serie A Lega B	Design and project management of the team developing a new automatic system to elaborate the Football Official Fixtures, on behalf of NOOS ( <i>innovation consulting firm</i> )
2005	Fondirigenti ( <i>Managers Union</i> )	Coordinator of courses for Top Managers, on behalf of SDOA Management School
2001	Sudgest ( <i>italian agency for supporting PAs</i> )	Strategic development plan and Organization development plan of the Agency participated by the Italian Ministry of Treasure, on behalf of Delta Consulting ( <i>managing consulting firm</i> )
since 1999	Several Tech-Startups	Strategy design and business development support Products' system and marketing policy identification Business model design and business plan drawing
1998-1999	Telecom Italia ( <i>telco</i> )	Strategic redeployment and reengineering of the Corporate University 'Reiss Romoli', on behalf of V&V ( <i>consulting firm</i> )
1995-1998	Tesitalia ( <i>consulting</i> )	Director of the Consulting Division
1990-1995	Tesitalia ( <i>consulting</i> )	Director of the Banking Sector
1987-1998	Tesitalia ( <i>consulting</i> )	Design and implementation of Data Warehouse, Decision Support System and Executives Information System, mainly for public utilities, large and local banks Design and reengineering of Information Systems, for large and small companies and public administrations Design, planning and teaching of courses on Informatics and Statistics Testing of new methodologies for SW development Tutoring of start-ups funded by Imprenditorialità Giovanile ( <i>Italian agency for young entrepreneurship</i> ) and ESF Planning and managing of important public events (general organization and information systems)
1986	Nagrafin ( <i>finance</i> )	Research office

### OTHER SKILLS

#### Soft skills

- Communication, Involvement, Listening skills, gained along many years of teaching in academical and business contexts
- Adaptability in multicultural and multidisciplinary contexts, experienced and honed along numerous projects

### Organizational skills

- Integration of technological innovation and organizational change
- Leadership of large (25-30) and small (4-5) teams
- Planning and leading of even complex projects within different domains (research, education, change management, Information Systems), controlling different aspects (results, quality, budget, HR)
- Design of user-oriented systems

### Technological skills

- Office Automation tools (both Microsoft and Open source)
- SQL Databases
- Visual Basic and VB.Net languages
- HTML language
- Python language
- Tableau
