## HUMANITIES & SOCIAL SCIENCES

### **The State of Things: Migration Studies - Friday, March 13**

An interdisciplinary introduction to migration studies that helps students critically engage with contemporary debates on migration, diversity, and inclusion.

### **Climate Justice - Saturday, March 14 or Saturday, March 21**

This workshop explores the ethical and social dimensions of climate change, with a focus on inequality, environmental justice, and global responsibility.

### **Italian Fashion Through Advertisements - Friday, March 20**

Students examine how fashion advertising has shaped and reflected Italian society since the 1960s through the lens of visual culture.

### **Understanding EU Politics Through Role Play - Saturday, March 21**

An interactive introduction to European Union politics that develops critical thinking, collaboration, and decision-making through simulation.

### **Fashion + Food + Tourism = Made in Italy - Sunday, March 22**

This workshop explores the history and contemporary meaning of the "Made in Italy" label through Italy's fashion, food, and tourism sectors.

### **Business & Human Rights in Today's Economy - Sunday, March 22**

An introduction to how businesses navigate ethical responsibility and human rights challenges in a global economy.

### **Fashion & Politics: T-Shirts (& Co.) as Statements - Sunday, March 22**

A historical and sociocultural exploration of fashion as a medium for political expression and identity.

## SCIENCE & ENVIRONMENT

### **Urban Air Quality & Climate Future - Friday, March 13**

An applied workshop examining urban air pollution and collaborative strategies to address climate challenges.

### **Challenges of Sustainable Development - Saturday, March 14**

A critical overview of global environmental challenges and integrated approaches to sustainability.

### **Hidden Biodiversity on Campus - Sunday, March 15 or Saturday, March 21**

An inquiry-based workshop that explores local biodiversity and its connection to environmental sustainability.

## STUDIO ARTS

### **Intro to Darkroom Photography - Friday, March 13**

A hands-on introduction to traditional darkroom photography techniques and creative photographic printing.

### **Digital Photography - Saturday, March 14 or Saturday, March 21**

An experimental photography workshop that encourages students to explore new perspectives using digital tools and everyday materials.

### **Recycled Paper with Wet Collage - Saturday, March 14 or Sunday, March 15**

A creative workshop focused on handmade paper-making and collage using recycled materials.

### **Cyanotype Workshop - Friday, March 20**

An introduction to cyanotype printing that combines early photographic processes with botanical imagery.

### **Ink Wash Techniques - Saturday, March 21**

A drawing workshop exploring expressive ink techniques through sketching and layered composition.

### **Mask Making in Clay - Saturday, March 21**

A sculptural workshop introducing clay modeling techniques to create a life-size portrait mask.

### **The Portrait - Saturday, March 21**

A guided introduction to portrait drawing and painting that emphasizes proportion, observation, and watercolor technique.

## PERSONAL & PROFESSIONAL DEVELOPMENT

### **Cybersecurity & Cybercrime - Friday, March 13 or Saturday, March 14**

An accessible introduction to digital security and cyber risks in everyday online environments.

### **Writing Like a Pro - Sunday, March 22**

A skills-based workshop focused on developing clear, confident, and purposeful writing.

### **Speaking with Confidence - Sunday, March 22**

A practical workshop designed to strengthen public speaking and effective communication skills.

### **Food for Thought - Sunday, March 15 or Sunday, March 22**

An interdisciplinary exploration of nutrition, food culture, and mindful eating in a global context.
