

TEMPLE ROME SUMMER FULL-TIME INTERNSHIP PROGRAM

ROME, ITALY

Summer 2019

ABOUT THE PROGRAM

Temple University Rome offers students the opportunity to gain first-hand, practical work experience through a summer internship in a major European capital. Our internships provide an immersive, in-depth introduction to the Italian and European workplace, allowing students to develop key 21st Century marketplace skills that will set them apart from their peers in today's competitive job market.

Through students' internships and interactions with our network of Italian leaders in Business, Government, NGOs, Communications, and Hospitality, they will critically examine professional work-place practices within Italy and throughout Europe, thereby gaining a more nuanced perspective of the global market. Interns are supported in processing what they experience at their internship, focusing on their skills, professional development, and career aspirations for the international market, while forming a global network of contacts that will be valuable both personally and professionally.

WHY SHOULD YOU INTERN IN ROME?

Eternal City, Eternal Change: Rome provides a complex, engaging, welcoming, and thought-provoking location in which to participate in an internship. Known as the Eternal City, Rome offers the greatest co-mingling of the historic and the modern, where you will walk each day through the streets of an ancient capital that has transformed through the centuries into a vibrant, multifaceted, contemporary city. By interning in Rome, you will experience the history of civilization, immerse yourself in the language, culture, art, and food of Italy, and delve first-hand into the issues of a modern nation facing economic, political, and humanitarian challenges and opportunities, as a key player in the European Union and the Mediterranean region. While Rome is a large city, it is also manageable and walkable, allowing you to create a sense of belonging and community for the time you are there.

SUMMER INTERNSHIP OPPORTUNITIES IN ROME

STUDENT PERSPECTIVES

Joshua Gabay

Major: Culgural Anthropology, Innovation & Entrepreneurship Certificate at Duke University
Research & Development Intern with A.S. Roma

"My work experience abroad has allowed me to challenge my potential in another work environment. I am thrilled to have made connections, represent the brand, and leave my mark abroad in a hands-on experience with A.S. Roma. Integrating business strategies and practicality strengthened my endeavor to understand and appreciate cross-cultural competence even more, especially in terms of working together in executing a plan beneficial on all levels.

Alexander Voisine

Major: Global Studies and Spanish at Temple University
Legal Intern at SQ Law

"I came into SQ Law not really knowing much about law or the Italian culture. I left SQ Law with a passing for international law and an even stronger passion for the Italian culture. The internship has prepared me for a dynamic global career, but has also expanded my horizons and has inspired me to seek out and connect with the different cultures of the world."
